The Secret of a Good Figure  
often lies in the brassiere. Hundreds of thousands of women wear the Bior-Jolie Brassiere for the reason that they regard it as necessary as a corset. It supports the bust and back, and gives the figure the youthful outline fashion desires.

the duration of the shipping seasons in the various sections. Strawberries begin to leave central Florida as early as December and the movement continues until the end of March. By the first of March the first strawberries from southern Texas and southern California to find their way to market. About the middle of March the Louisiana crop begins to move, continuing about two months or until the middle of May. May is, indeed, the great month for carload shipments. By far, the greatest part of the Tennessee and Virginia crop is shipped at that time as well as much of the Delaware, southern Illinois and Maryland supply. By the end of June, southern California is almost the only area from which carload shipments are being made. The strawberries then on the market are chiefly grown in small quantities in areas close to the great consuming sections.

In connection with this work the department of agriculture is conducting a telegraphic market news service of the daily movement of strawberries to the various large markets during the current season, together with the prices received. Reports of these movements and prices are telegraphed daily to producing areas and consuming centers in order to assist in the profitable distribution of the crop.

#### Best Thing for a Bilious Attack

"On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. Failing to get any relief from any other treatment, I took three of Chamberlain's Tablets, and the next day I felt like a new man," writes H. C. Bailey, Editor Carolina News, Chapin, S. C. ### All Germs Ordered To Beat it!—Git!

Searching Influence of a Remedy That Works Wonders.

The introduction of S. S. S. is at once a command to blood impurities to find a way out.

And what are blood impurities? They may be the hypersecretions found in the mucous linings of the body; they may be acid accumulations known as rheumatism; they may be boils, pimples, eczema, acne and stubborn, indolent sores. But examined closely, they are all germs that have gotten the upper hand and it requires the flushing influence of S. S. S. to drive them out. And out they go when S. S. S. begins to circulate in the blood. It only requires five minutes to begin this influence, for it is a fact that in this limited time S. S. S. may be traced in the urine, in the perspiration, in the effluence from the lungs to show that it is at work. Germs, mind you, are of various kinds, but all are foreign to health and S. S. S. is no respecter of destructive germs. It drives them all out, of whatsoever name they go by. Just get a bottle of S. S. S. of any druggist and soon you will observe a decided change. And if yours is a stubborn case, write to the Medical Adviser, care of The Swift Specific Co., 197 Swift Bldg., Atlanta, Ga. He is a regular physician, proud of his name by virtue of his distinguished family and is recognized as a foremost physician on his own merit.

#### FAVOR CHANGE IN GARB OF U. S. NAVAL BOYS

Washington, May 3.—Surgeon J. C. Pryor of the navy, who is already on record as favoring the banishment of lanyards, balloon trousers and other habiliments which make the American sailors' garb distinctive, has submitted a report recommending that the wearing of white clothing by naval forces be abandoned.

While admitting that white clothing has some advantages, Surgeon Pryor thinks it affords the enemy a target easily distinguished and in addition is impracticable because it is so easily soiled. To escape snipers at Vera Cruz last year he said, the American naval forces in many instances colored their white uniforms with improvised dyes, coffee and even mud. Surgeon Pryor believes khaki, olive drab or slate colored material would make more practical uniforms.

#### NO PROSPECT OF GETTING PAY

Auditor Howard Says Will Not Reverse Case of Predecessor.

Oklahoma City, Okla., May 3.—Despite the fact that the attorney general has held that the state board of education has power to grant sabbatical leaves of absence to teachers employed in the state, educational institutions there is no immediate prospect of those instructors whose pay was held up by state auditor J. C. McClelland in the latter part of his recent term in office receiving their money.

State auditor Howard said today that so far as his administration is concerned he will be governed by the opinion of the attorney general and will allow such pay on all cases that may accrue during his administration, but that he will not reverse the former auditor as to the cases on which he acted adversely. There are about fifteen of the leaves for one year on half pay that are thus involved.
